Why Edventure...

Active Play is essential for physical development and has many benefits not just for the improvement of balance and co-ordination skills but also in general health and wellbeing. Every item supplied by Edventure goes through an evaluation process to ensure the demanding requirements of schools are met and everything in our catalogue should not only be fun for children to play with but should also encourage communication and co-operation.

Having a wide range of activities available means you can have something for everyone which will encourage more children to get involved and burn off that excess energy, which should result in them being more receptive in class. Our aim is to make sure we give you the right items for free play at Playtimes and we concentrate on getting this right.

Many school staff find it helpful to have a range of products which encourage positive, happy and healthy active play at playtime, although if this is not controlled correctly can be chaotic. We offer a number of essential products to support schools in this by offering a range of playground zone signs that will assist staff and midday supervisors to organise areas through a busy playtime.

Why not try introducing Playground PALs. Playground PALs are responsible for making sure that everybody has somebody to play with or an activity to take part in which will help everyone to feel included at playtime and will at the same time promote improved behaviour during playtimes.
